Hi Douglas,

Our conference planner is bringing a pointer for you, so there will be one on hand.

Thanks!  
Kristen

> Thanks Kristen. My main question is whether you will be running these slides during the webinar or if I should/can do that from here. This is my first time presenting remotely so I thought I would ask. Also, the word slides have "cascading" bullets to emphasize each point...something to keep in mind if you are controlling the slide display. Finally, I was referring to a hand held "pointer" you might have access to there. We should be good either way.

I would be happy to walk through it with you, but I do not have a password to initiate the program. We're both traveling on Monday, and then the meeting starts Tuesday morning.
